

Gossip Bench Assembly

Thank you for purchasing our Canadian-made products

We suggest adding wood glue to the ends of the logs prior to inserting them into the holes but this is not mandatory.

Parts: 2 Back Assemblies, 1 Seat Base Assembly, 1 Table Top, 2 Side Assemblies, 2 Small Logs, 1 Longer Log, Screws.

1) Insert a Back Assembly into holes in one side of the Seat Assembly as shown.

2) Position Side Assembly with holes over tenons as shown. Use your mallet to ensure complete insertion.

3) Insert Longer Log into the side of the Back Assembly.

4) Install other Back Assembly on the Base Assembly and Long Log using mallet to ensure full insertion.

5) Attach the other Side Assembly to the Base Assembly and Back Assembly as shown using mallet.

6) Insert Screw in side of the back where inserts into seat. Repeat on the other Back Assembly.

7) Insert the two Small Logs (Table Supports) into the holes between the seats. Insert Screws as shown.

8) Install Table Top. Secure with Screws at top of front supports and at the back from the bottom.

Your Gossip Bench is now assembled!

Screws should be tightened periodically to ensure long service.
